Profile

As a passionate developer, I thrive on leveraging my skills in React, TypeScript, and Tailwind CSS to craft intuitive and robust web applications. With a keen eye for detail and a drive to innovate, I continuously push the boundaries of user-
friendly design and functionality. My goal is to tackle complex challenges and deliver seamless experiences, propelling the future of web development forward.

Skills & Abilities

- JavaScript
- Tailwind CSS
- GIT AND GITHUB
- REACT JS
- TypeScript

Projects

SOCIAL MEDIA WEBSITE

- Developed a responsive social app using React JS and tailwind CSS, ensuring seamless user experience across all devices.
- Integrated Appwrite for real-time database management and user authentication.
- Employed React Query for efficient data fetching and caching, and React Router DOM for dynamic, client-side rendering.

BANKING WEBSITE

- Developed a banking website using Next.js on top of React and shadcn, ensuring a robust and responsive user interface.
- Integrated Zod for schema validation and Chart.js for dynamic data visualization, enhancing the user experience with real-time financial data.
- Employed Appwrite for secure user authentication and real-time database management, ensuring optimal performance and data security.

Education

BCA – BACHELOR OF COMPUTER APPLICATION| OCTOBER 2024 | J S UNIVERSITY, AGRA
